

# I'm Bree !

A Web Developer.  
(Who is obsessed with Genshin Impact)

Hello.

I am Bree, a Web Developer in the making. When I'm not learning, I enjoy Genshin Impact.

• • • • •

My Skills.

### Front End & Full Stack Development

I'm currently taking this course to learn how to build websites. I have always enjoyed web site design and only recently found out about full stack and website development. I hope to continue learning and am enjoying this course

### Genshin Impact

I am very good at spending my free money on Genshin Impact. I recently found Genshin while looking at computer parts at a Micro Center. The computer they had on display was showing someone streaming Genshin Impact. I was immediately in love haha

### Get In Touch

If you enjoy Coding or Genshin as Much as I do!

Love coding? Interested in web development? Are your pockets empty because of Genshin? We can play genshin while we talk about coding... er... Talk about genshin while we code!
